SPD/CSSD
COMPLETE SOLUTION

ENHANCING SURGICAL SAFETY WITH ADVANCED, ERGONOMIC OPERATING ROOM & CSSD SOLUTIONS

20 YEARS OF EXPERIENCE

At Pegasus Medical, we transform workspaces with meticulously designed solutions that enhance workflow and maximize productivity.

With over 20 years dedicated to studying and understanding the needs of healthcare professionals, our solutions are born from a wealth of expertise. The user's needs serve as our guiding light, shaping innovations that empower and deliver excellence.

In the Sterile Processing Department (SPD) / Central Sterile Services Departments (CSSD) environment, precision and efficiency are non-negotiable. We provide comprehensive solutions, from secure storage to streamlined transportation, aiming to improve hygiene, reduce contamination risks, and optimize workflow. Elevate your SPD/CSSD standards with our innovative products dedicated to ensuring the highest levels of safety and sterility in healthcare settings

THE POWER OF STATIONARY STORAGE

PATENTED

60% More Storage

TAILORED

1000Kg 2200lb Per unit!

HYGIEIA
Perfect for Tenders

✓ **AIRTIGHT STRUCTURE**

No holes = Airtight

Rack with holes = Contamination

Sealed design prevents liquid infiltration, ensuring system can be fully washed without risk of rust or water accumulation

✓ **USER-FRIENDLY DESIGN**

The Hygieia system enables effortless rail adjustments, like building blocks, for easy customization by the staff, ensuring adaptability to storage requirements without technical expertise

✓ **COMPETITIVE PRICES**

With preset configurations and fixed sizes, our system simplifies selection and pricing — ideal for tenders and cost-effective medical storage solutions

SALUS
Tailored for your space & special requirements

✓ **WORK EFFICIENCY**

Unlock up to 40% more storage space with the latest standards and work methods, enhancing both the ergonomic health of medical staff and equipment

✓ **CUSTOM PROJECTS**

It doesn't matter if you have windows or a problematic work space, our team of experts will come to the place, take measurements, list your storage needs and work environment and accordingly present you with a solution tailored to your needs.

SALUS HD
Best for elongated spaces

✓ **UPPER RAIL**

• No platform rails hindering room disinfection
• No construction permits or floor drilling needed

✓ **60% MORE STORAGE**

Aluminum system for areas with increased storage needs. Best for elongated spaces, maximizing utilization of the space

Fixed version   Mobile version
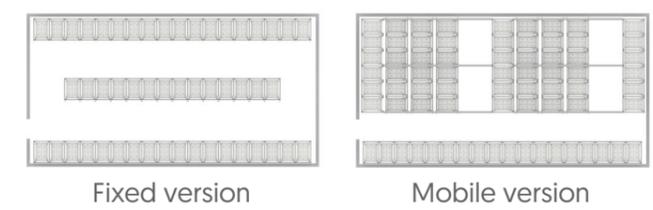

SALUS SHELVING
Does not rust! & Easy to clean

✓ **HIGH LOAD CAPACITY**

Ability to hold heavy loads, 250 kg / 550 lb per Rack, up to 1000 kg / 2200 lb per unit

✓ **RELIABLE CHOICE**

• Long-lasting durability
• Easy to clean
• Quick assembly without special tools
• Flat packaging = Transport savings

For maximum efficiency MIX & MATCH all the products

DEDICATED MODULES FOR
STERILE RACKING

SEAMLESS
TRANSPORTATION

BLUE PACK STORAGING

NO Touch™

Eliminate contamination from **infiltrated air** and **tears** during transportation by touching only the carrier shelf or basket, not the sterile pack

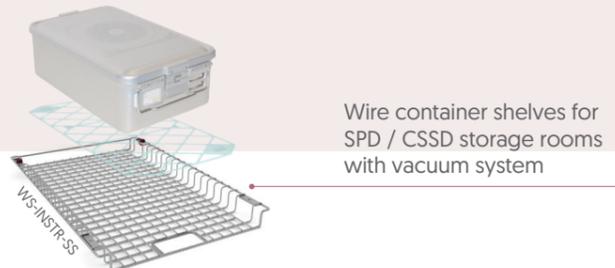

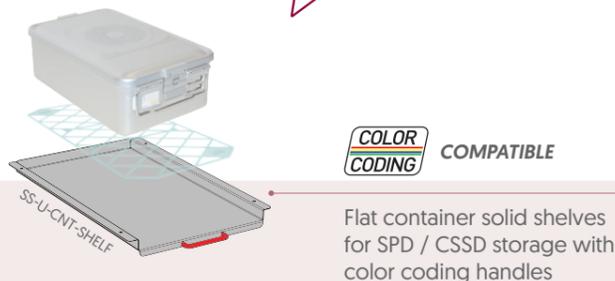

✓ HOLDING
NO-TOUCH SHELF

✗ HOLDING THE
STERILE PACK

SS-6040WH — Wire shelves for light packs

WS-B204060-SS — Wire Baskets for heavier and/or multiple packs

CONTAINER STORAGING

RECOMENDED:
NON-SLIP SILICONE MAT
VERS-PGS-SIMAT

COLOR CODING COMPATIBLE

SS-U-CNT-SHELF — Flat container solid shelves for SPD / CSSD storage with color coding handles

ERGONOMIC
100% opening makes picking up heavy containers easier safer for the staff

AVOID METAL DUST
Store each container individually and prevent scraping from stacking

WS-INSTR-SS — Wire container shelves for SPD / CSSD storage rooms with vacuum system

SALUS

Open Transportation Carts

✓ **FAST TRANSPORT**

Move between stationary units in areas in the same building

APOLLO

Secured Transportation Carts

ID RFID

✓ **TRANSPORTATION & STORAGE**

Can be used not only for transportation, but also as a mobile storage unit

HERMES

Closed Transportation Carts

TOWABLE

✓ **HEAVY DUTY**

Cart with bigger wheels, made for transport in between buildings of the same institution

STERILE READY OPERATION ROOM

POLY
Antimicrobial Anesthesia cart

SALUS CARTS
Does not rust! & Easy to clean

125 kg / 275 lb Per unit!

✓ **LIGHTWEIGHT & ROBUST**

The cart structure is made from anodized aluminum (20 microns) and polymer shelves, making it light and easy to maneuver

✓ **EASY TO CLEAN**

Simply remove the polymer slats and place them in a dishwasher and wipe the aluminium frame

✓ **NON ABRADING**

Polymer shelves prevent the formation of metal dust by avoiding scraping of containers and No Touch shelves

ISO6040
Antimicrobial Trays

✓ **SAFE & STERILE**

Modules and dividers are made from 100% antimicrobial materials that can be easily and safely cleaned, helping mantain a safe and sterile enviroment

24-HOUR GERM ELIMINATION

✓ **CUTTING EDGE**

- 100% Antimicrobial polymer
- Modularity
- Lightweight, yet structurally strong
- High cleaning resistance
- ISO 6040 suitable
- It accessories suitable

PATENTED

SECURE DIRTY AEREA

SALUS

Open Transportation Carts

✓ **FAST TRANSPORT**

Move between stationary units in areas in the same building

HERMES

Closed Transportation Carts

✓ **HEAVY DUTY**

Cart with bigger wheels, made for transport in between buildings of the same institution

ADVANCED CLEANING AEREA

DISHWASHER

TRY ME IN DISHWASHER

ISO6040
Yellow modules: Dishwasher-safe

✓ **MACHINE-WASHABLE**

Smooth and rounded corners make them easier to sterilize.
